A Crude Look At The

The title of the book - "a crude look at the whole" - is actually a quote from the physicist Murray Gell-Mann and it very accurately describes how we need to deal with complex systems. We do need to take a look at the whole, but this look also cannot be too fine-grained; it needs to be pointillistic and crude.

Amazon.com: Customer reviews: A Crude Look at the Whole ...

In this very general sense, in the course of the 21st century, in the spirit of taking a crude look at the whole, this goes beyond trying to estimate the probabilities of various likely scenarios in the future. Rather, one would look for more sustainable futures, even if they seem to have low probabilities.
