Long-term value. Long-term value is created by focusing on a broad set of stakeholders, with a distinct purpose in mind, to sustain a business for the long term. Today, societies demand greater responsibility from the organizations they work for, buy from and invest in. The Covid-19 pandemic and its aftermath places a spotlight on how organisations behave, which is now more critical than ever.

### Long-term value | EY - Global

By redefining value using the broader and longer-term lens of stakeholder capitalism and linking key nonfinancial metrics of value to strategy execution, companies can better communicate how they are working to achieve long-term value creation and sustainability for themselves, their stakeholders, and society and economies generally.
