Anna Freud Defense Mechanisms

In Anna Freud ...Ich und die Abwehrmechanismen (1936; The Ego and Mechanisms of Defense, 1937) gave a strong, new impetus to ego psychology. The principal human defense mechanism, she indicated, is repression, an unconscious process that develops as the young child learns that some impulses, if acted upon, could prove dangerous to himself....

The Ego and Mechanisms of Defense | work by Anna Freud ...

Regression is a defense mechanism proposed by Anna Freud whereby the the ego reverts to an earlier stage of development usually in response to stressful situations. Regression functions as form of retreat, enabling a person to psychologically go back in time to a period when the person felt safer. What is an example of regression?

Defense Mechanisms | Simply Psychology

Sigmund Freud posited that defence mechanisms work by distorting id impulses into acceptable forms, or by unconscious or conscious blockage of these impulses. Anna Freud considered defense mechanisms as intellectual and motor automatisms of various degrees of complexity, that arose in the process of involuntary and voluntary learning.

Defence mechanism - Wikipedia

The Ego and the Mechanisms of Defense by Anna Freud. Excerpts fromThe Ego and the Mechanisms of Defenseby Anna Freud. Compiled by Phillip W. Weiss, LCSW. CHAPTER 1 – THE EGO AS THE SEAT OF OBSERVATION. All the defensive measures of the ego against the id are carried out silently and invisibly. The most we can ever do is reconstruct them in retrospect: we can never really witness them in operation.

The Ego and the Mechanisms of Defense by Anna Freud

appear to have ever furnished either a comprehensive list of defense mechanisms or an integrative theory of defenses (see Laplanche & Pontalis, 1973). Anna Freud (1936) did attempt a systematic taxonomy of defense mechanisms, but her list is too long and too oriented toward psychopathology for our purposes.
