### Cessna 310 Aircraft Pilot Owners

Pilots coming from other light twins will recognize the 310's as a large step up; it feels like a much larger, more substantial airplane than, say, an Apache or Travel Air. As for those moving up through the Cessna line, a 210 pilot will most definitely notice the 310's heavier controls, higher wing loading, and greater approach and landing speeds.

### Cessna 310 - AOPA - Aircraft Owners and Pilots Association

The Cessna 310 is an American six-seat, low-wing, twin-engine monoplane that was produced by Cessna between 1954 and 1980. It was the first twin-engine aircraft that Cessna put into production after World War II.

### Cessna Flyer Association - Cessna 310

The Cessna 310 has become popular with airline pilots, based on ownership at John Bowman's home airport (two of four based 310s). And he said people buy them knowing they're going to put money into them, because they're fast, reliable, and safe. "They like the numbers," he added.
