The Whole Food Diet has caught fire and it is changing lives all over the planet. Will YOU be next to accept the challenge? Processed food is making you sick! The Whole Food lifestyle is a movement that is quickly sweeping the world and it is not hard to understand why - this is the way that humans were meant to consume food! So much of what we eat these days comes out of a package and is pre-made, chemically engineered, mass-produced, "Frankenstein" food. Food that is conceived of in a laboratory by chemical engineers working for some of the largest corporations in the world, and then processed on an assembly line at an industrial food processing factory is not how we were meant to live. Processed food is produced for the purpose of growing corporate profits, not sustaining our well-being or promoting our health, and it certainly is not made with the goal of promoting a balanced lifestyle or a healthy weight! No, the only purpose of the processed food that has tragically become so ubiquitous these days is so that a small number of international food and agricultural companies can make more money. The quality and length of our lives depends on whether we make the personal choice to reject this broken system and instead embrace real food. It is time to stand up and reclaim your health! When you begin your 30 Day Whole Food Challenge and you see for yourself the difference eating a Whole Food diet can make in your own life in a mere 30 days, you will be a Whole Food enthusiast for life. This may seem like a radical claim, but actually it is a simple fact that can be stated with confidence because the Whole Food Diet is not just a diet, but rather a lifestyle and philosophical movement that is based on taking back our health and consuming healthy, unprocessed, delicious food the way nature intended. Say NO to chemicals, preservatives, and the health-destroying, waist-expanding industrial "food products" and instead say YES to eating delicious real whole foods that are natural, honest, and will help you live life to the fullest! 30 days of the freshest and most amazing Whole Food recipes! This Whole Foods cookbook makes it easy by providing a complete 30 day Whole Food approved meal plan. Every day has three recipes for breakfast, lunch, and dinner. Each and every recipe is made specifically for the Whole Food Diet. Simply start at Day 1 and enjoy a full month of amazing Whole Food meals that are easy to make, taste delicious, and will make you feel amazing. Every recipe contains nutritional information and requires no exotic appliances or impossible to find ingredients. Enjoy some of the best meals of your life all while maintaining an approved Whole Foods Diet for optimal health, energy, and weight loss! Accept the challenge! The best part of the Whole Foods diet is that it is a sustainable lifestyle, not another crash starvation diet with short-term results that make you feel miserable. The Whole Food lifestyle is not a boring, miserable, starvation diet. You will love the recipes in this book and be proud to serve them to your family over and over again. That's because when you eat real food made of fresh, natural ingredients prepared according to the easy instructions in this book, it simply tastes better than processed junk food! Don't believe it? Grab this book today and give the Whole Food Diet just 30 days. It will change your life!

Use These Guidelines Of Super Healthy Food Consumption And Start Treating Your Body How It Deserves Today! Nature gifted us her most valuable resources and we should value them as they are, without trying to transform them. For many years, humans lived on the natural nutrients that nature provides us with, but unfortunately, only in the last century food experiments were conducted and implemented to produce crazy amounts of food. Today, it's increasingly harder to find an ingredient that has naturally grown under the sun. Instead, the food industry giants are continually looking for cheaper ways of producing more and more food for larger profits thus introducing many artificial ingredients into our food. What does this mean for us? The sad thing is that, as our schedules become tighter and tighter, most of us are opting for empty-calorie, ready-to-eat foods from these food giants that only require to be popped in the microwave for 3 minutes and voila! Dinner is ready! Should the ever-increasing cases of lifestyle diseases such as cancer, diabetes, heart diseases, and the like then come as a surprise to us? I will tell you with certainty, NO! If we all stop just for a few seconds and pay attention to what our bodies are saying and respect that, only then will we understand that our bodies need real food to function and heal. This is where the whole food diet comes in; healthy living is a lifestyle and starting with the whole food diet is the first step to success. When undertaking the whole food diet, you should emphasize on dark green leafy veggies, plant obtained foods and other natural foods that have undergone zero or minimal processing. We are going to look at the whole food diet approved foods, complete with over 100 healthy whole food recipes in this guide. With the popularity of this diet, what's your excuse for not giving it a shot? Is it the cost, being too busy to make any diet work or the fact that you have a raging sweet tooth? We've all been here so I totally get it. But, with a lot of determination and some planning and keeping things simple, the whole food diet is totally possible. We are going to look at some delicious recipes made using every day healthy ingredients so don't worry about cost or using too much time cooking. When it comes to all the functions within your body, it all starts with food. So, let's get started! Here Is A Sneak Peek Of What You Will Learn The Building Blocks of the Whole Food Diet Why You Should Embark On the 30-Day Whole Food Diet Challenge The 30-Day Whole Food Diet Challenge Meal Plan Whole Food Diet Recipes And Much More! Lose weight, lower cholesterol, significantly reduce the risk of disease, and become physically fit--in just 4 weeks. Professional athlete-turned-firefighter Rip Esselstyn is used to responding to emergencies. So, when he learned that some of his fellow Engine 2 firefighters in Austin, TX, were in dire physical condition-several had dangerously high cholesterol levels (the highest was 344!)-he sprang into action and created a life-saving plan for the firehouse. By following Rip's program, everyone lost weight (some more than 20 lbs.), lowered their cholesterol (Mr. 344's dropped to 196), and improved their overall health. Now, Rip outlines his proven plan in this book. With Rip as your expert coach and motivator, you'll transform your body and lifestyle in a month. His plant-powered eating plan is based on a diet of whole foods, including whole grains, fresh fruits, vegetables, legumes, nuts, and seeds. This invaluable guide features: Dozens of easy, mouthwatering recipes-from pancakes to pizza, Tex-Mex favorites to knockout chocolate desserts-that will keep you looking forward to every bite Pantry-stocking tips will take the panic out of inevitable cravings and on-the-fly meals Guidelines on menu choices that will allow you to eat out, wherever and whenever you want Rip's simple, firefighter-inspired exercise program that will boost your metabolism and melt your fat away. Medically approved, easy-to-follow, and amazingly effective, this diet is designed for anyone who wants to make heroic strides in his or her health, weight, and well-being-all without heroic effort. "Want to be as strong as a Texas firefighter? Or as healthy as a professional triathlete? Then follow the wonderful advice of Rip Esselstyn, who is both. His book can save your life--whether you're a man or a woman. Highly recommended!" -Dean Ornish, M.D., Founder and President, Preventive Medicine Research Institute, Clinical Professor of Medicine, U of California, SF, author, Dr. Dean Ornish's Program for Reversing Heart Disease

The 30 Day Whole Food Challenge is much more than a simple diet cookbook! It's a clean eating plan which involves reducing the intake of alcohol, dairy products, sugar and some other ingredients you usually consume in large quantities! ☞☞☞You are what you eat, and true enough!☞☞☞ Many people in our modern, fast-paced world are unhealthy as they tend to overindulge in greasy, processed, calorie-dense foods for the sake of convenience. You can reset your body by accepting a 30-Day Whole Food. In just 30 days, you'll change your habits, learn about proper nutrition, reset your metabolism, and genuinely enjoy what REAL food tastes like. While some types of carbohydrates are healthy and good for you, there has been a tendency over the last century to consume them in excess. Worse still, an increasing amount of the food we consume is processed and highly refined. It leads to many people's health being impacted negatively, while they remain blissfully unaware and continue eating meals that are making them sick. Adverse effects can include low energy levels, random unexplained aches in the body, weight gain/difficulty losing weight, or even certain conditions, such as skin problems or problems with digestion. These may be explained through your diet, as you may be eating more wrong foods than the appropriate options. In this book, we will discuss the following items.A Complete overview of whole foodsThe rules governing the whole 30 diet planThe meal plan to followOver 600 whole food recipes to prepare An excellent way to get back on track is to go through a total reboot. Fix your diet by changing it completely, taking away all the unhealthy options and begin eating the right foods, foods that have been proven to provide proper sustenance and aid our body's function, especially when consumed in the appropriate quantities. It is not to say that a person cannot treat themselves now and again, but for now, it will be best to cut as much unhealthy food from your life as possible, to better find out where you are in terms of nutrition and diet. Have fun and enjoy !
