A celebrity trainer and star of Animal Planet's It's Me or the Dog presents the ultimate guide to raising a puppy.

When you adopt a shelter puppy, you acquire a loving companion and save a life at the same time. When enough dog lovers do the same, they create at least a partial solution to the pet overpopulation problem in the United States today. It staggers the mind to learn that over seven million dogs are received by shelters in this country annually. Of this figure, far too many are puppies, and for most the future is neither bright nor long. Mainly, this vast glut of surplus puppies happened because someone didn't care--about neutering or using a leash or closing gates or even about the quality of life for all living things. In *The Chosen Puppy*, author Carol Lea Benjamin offers a better understanding of the shelter puppy, why its needs are so special and what you must do to be sure the Chosen Puppy of your choice grows up well adjusted and happy. Here's how to temperament-test and select the right puppy for you; and here's how to train your Chosen Puppy and care for it, providing all the creature comforts it never may have had and the love it craves so much from those it comes to depend on. Ms. Benjamin understands all aspects of pet overpopulation and how to best help its most innocent victims. She tells why neutering is the hope of the future to curb and curtail a population explosion that never

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit,
