Comparative Politics of the Third World: Linking Concepts and Cases is a good book with a lot of information as the previous reviewer has indicated, however because it's 2007 printing, it needs to have a supplementary text or articles to update the area between were the book leaves off and modern day. However that glaring weakness accepted, this book does provide very good and detailed histories of the countries in the book : Iran, China, Indonesia, Mexico, Turkey, Peru, Nigeria, Zimbabwe ...

~~Cases In Comparative Politics Fourth Edition PDF~~

Comparative politics is a subdiscipline of political science. The goal of political science is to promote the comparison of different political entities, and comparative politics is the study of domestic politics within states. It differs from the other subdiscipline of political science—international relations—which instead focuses on politics between states.

positive responses received already to this much needed new textbook. Comparative Politics of the Third World offers just the right blend of theory and substance to introduce students in a meaningful way to the developing - or not developing - world. Avoiding overgeneralization on the one hand and the problems of a strictly country-by-country approach on the other, authors Green and Luehrmann consistently link concepts pertaining to history, politics, economics, and international relations to a set of eight case studies: the classic cases of Mexico, Nigeria, Iran, and China and the alternative cases of Peru, Zimbabwe, Turkey, and Indonesia. Their approach, an accessible and even compelling narrative, is directed specifically at today's undergraduate students. Among the many outstanding features of the book: -Uses the familiar concreteness of case studies to make sense of both classic and cutting-edge theory. -Provides a solid introduction to eight countries, as well as the analytical tools needed to appreciate the enormous diversity of experience within and across regions. -Raises controversies: offers a stimu

"Cases and Concepts in Comparative Politics gets students out of the text and into the real world. Through its unique applied approach that introduces the concepts in the context of real situations, along with pedagogy that encourages students to practice exploring on their own the concepts in action in country case studies, students spend more time doing the work of comparative politics and less time reading about it"--

Cases in Comparative Politics, Third Edition, is a set of thirteen country studies that describe politics in the United Kingdom, the United States, France, Germany, Japan, Russia, China, India, Iran, Brazil, Mexico, South Africa, and Nigeria. This casebook applies the conceptual framework developed in the text across countries with a consistent organization that facilitates comparison and aids understanding.

Introducing Comparative Politics: The Essentials is organized thematically around the essential questions in comparative politics—Who rules? What explains political behavior? Where and why? Adapted from the authors' Introducing Comparative Politics, Fourth Edition, The Essentials version offers the same framework for understanding comparative politics in a briefer format. Instructors have greater flexibility in teaching the course because this version of Stephen Orvis and Carol Ann Drogus' best-seller does not include extended case studies. Loaded with contemporary examples and up-to-date research, this streamlined text helps students engage with the critical issues shaping global politics today. KEY FEATURES: Chapter-opening key questions help you focus on the key issues as you are reading. The chapters sometimes provide conclusive answers to the key questions, but more often they show you different ways the questions can be answered or approached. Multiple "In Context" features in every chapter illustrate basic data about the chapter topics so you can set

that idea into a comparative (and sometimes provocative) context. *Critical Inquiry* features highlight methodological issues in comparative politics, providing a gateway for empirical study and analysis. More than a hundred full color tables, figures, and maps help you visualize comparative data and better understand concepts. End-of-chapter lists of key concepts with page references are included to help you easily study and review the concepts, and a list of works cited and list of important print and electronic references offer you resources for further research.

The freshest, most contemporary introduction to comparative politics. *Essentials of Comparative Politics* introduces students to the concepts that political scientists use to study and compare political systems and the particulars of specific political systems. The Fourth Edition has been revised and updated to include the most current and relevant examples and scholarship. The text is available with a corresponding casebook of 13 country studies and a corresponding reader; the three components can be used individually or in any combination.

Integrating theories, methods, and country cases with an emphasis on application and analysis. Combining thematic organization and a variety of country-specific case studies, *Comparative Politics Integrating Theories, Methods, and Cases* is an engaging and accessible introduction to comparative politics. Methodological tools are introduced early in the text and integrated throughout to help students develop a systematic way of doing their own analyses of concepts and issues. These tools include theories, the basics of the comparative method, and manageable case materials for practice, all in the context of the big questions in comparative politics today.

William Roberts Clark, Matt Golder, and Sona Nadenichek Golder's groundbreaking *Principles of Comparative Politics* offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, readers have an even better guide to cross-national comparison and why it matters. Readers are offered a new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results; a thoroughly-revised chapter on culture and democracy that now includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; and a revised chapter on dictatorships that incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters and empirical examples and data on various types of institutions have been updated. The book's outstanding pedagogy includes more than 250 tables and figures, numerous photos and maps, end of chapter exercises and problem sets, and a broader set of works cited. New to this Edition A new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results are included. A thoroughly-revised

chapter on culture and democracy includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics. A revised chapter on dictatorships incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters. Empirical examples and data on various types of institutions have been updated. Online videos and tutorials guide students through some of the methodological components addressed in the book.

This systematic, user friendly, and refreshingly unusual introduction to comparative politics is designed to teach students how to think comparatively and theoretically about the world they live in. The second edition retains the core features of the first, coherently integrating comparative method, theory, and issues, but provides updated material and additional cases throughout. The text now also includes study questions for each chapter.
