means that there are no more skills for her to learn ...

In 1910, New York City was bursting at the seams as more and more people crowded into a limited supply of housing in the tenement districts of Manhattan and the older areas of Brooklyn. With no outlet for its exploding population, and the burgeoning social problems created by the overwhelming congestion, New York faced a serious crisis which city and state leaders addressed with dramatic measures. In March 1913, public officials and officers of the two existing rapid transit networks shook hands to seal a deal for a greatly expanded subway system which would more than double the size of the two existing transit networks. At

The time the largest and most expensive single municipal project ever attempted, the Dual System of Rapid Transit set the pattern of growth in New York City for decades to come, helped provide millions of families a better quality of life, and, in the words of Manhattan borough president George McAneny (1910-1913), "proved the city's physical salvation." It stands as that rare success story, an enormously complicated project undertaken against great odds which proved successful beyond all measure. Published in conjunction with the History of the City of New York Project.

our understanding of Post Traumatic Stress Disorder, and establishes the conceptual framework and terminology necessary to understand the disorder. The collected essays which follow provide a rich and comprehensive take on the complexity of Post Traumatic Stress Disorder, illuminating such issues as the variety of individual and cultural responses, the roles of pre- and post-traumatic causative forces, and the fluctuating complexities of diagnostic categories. Divided into sections addressing the broad topics of diagnosis, etiology, and treatment, Essential Papers on Post Traumatic Stress Disorder combines classic essays with more challenging and controversial approaches. Contributors include Sigmund Freud, Erich Lindemann, Leo Eitinger, Carol C. Nadelson, Malkah T. Notman, Hannah Zackson, Janet Gornick, Bonnie L. Green, Mary C. Grace, Jacob D. Lindy, James L. Narcissism has recently been the focus of debate among professionals, in large part due to the controversies surrounding the world of Heinz Kohut and Otto Kernberg. Yet much has been written about narcissism throughout the history of psychoanalysis and this carefully selected collection brings together the essential work on narcissism. The book first puts forth the major theoretical formulations - self-psychology, object relations, psychodynamics - and then explores diagnostic and therapeutic applications. The book offers landmark classic and contemporary contributions by authors such as Annie Reich, Heinz Kohut, Otto Kernberg, Alice Miller, Arnold Modell, and many others.

Leonard; Lewis R. Baxter, Jeffrey M. Schwartz, Kenneth S. Bergman; Dan Stein and Eric Hollander.

In Essential Papers on Countertransference, Benjamin Wolstein has carefully gathered the classic essays which trace the development of countertransference as a psychoanalytic concept and explore the various ways in which it has been defined and used by various psychoanalytic schools. The volume includes selections from the work of Sigmund Freud, D. W. Winnicott, Clara Thompson, Harold F. Searles, and Heinrich Racker, among others. Wolstein's introduction offers a provocative perspective on the concept of countertransference and places in context the many controversies surrounding its use by analysts. Contributors: Mabel Blake Cohen, Ralph M. Crowley, Lawrence Epstein, Arthur H. Feiner, Sandor

Ferenczi, Sigmund Freud, Merton M. Gill, Douglas W. Orr, Heinrich Racker, Otto Rank, Theodor Reik, Janet MacKenzie Rioch, Harold F. Searles, Leo Stone, Edward S. Tauber, Clara Thompson, Lucia E. Tower, and D. W. Winnicott.

At this time, borderline personality disorder is the most researched Axis II disorder and is beginning to rival the functional psychoses for space devoted to the topic in prominent journals. This book differs from other books on borderline personality disorder in its commitment to empirical data as the basis for progress and understanding when treating the borderline patient. Written by experts in this ever-changing field, it includes the most in-depth and up-to-date research and clinical findings on the etiology and treatment of borderline personality disorder.

common conduct among those who suffer from the disorder leave family members feeling confused, hurt, and helpless. In *Stop Walking on Eggshells*, Randi Kreger's pioneering first book which sold more than 340,000 copies, she and co-author Paul T. Mason outlined the fundamental differences in the way that people with BPD relate to the world. Now, with *The Essential Family Guide to Borderline Personality Disorder*, Kreger takes readers to the next level by offering them five straightforward tools to organize their thinking, learn specific skills, and focus on what they need to do to get off the emotional rollercoaster: Take care of yourself, Uncover what keeps you feeling stuck, Communicate to be heard, Set limits with love, Reinforce the right behaviors. Together the steps provide a clear-cut system designed to help friends and family reduce stress, improve their relationship with their borderline loved one, improve

their problem-solving skills and minimize conflict, and feel more self-assured about setting limits. Randi Kreger is the co-author of Stop Walking on Eggshells and the author of The Stop Walking on Eggshells Workbook. She operates bpdcentral.com, one of the top web-based resources for those living with BPD, and runs the Welcome to Oz online family support groups based at her web site. Cofounder of the Personality Disorder Awareness Network, Kreger is frequently invited to lecture on BPD and related issues, both for clinicians and laypeople.

This choice collection contains some of the most significant contributions to psychoanalytic and psychological understanding of

the effect of object loss on adults and children. Designed for psychoanalysts, psychotherapists and students of psychoanalysis and psychotherapy, this important volume focuses on those contributions most directly relevant to the clinical situation, without neglecting fundamental descriptive and theoretical contributions.

Rita V. Frankiel has culled the literature on object loss and assembled the most salient and conceptually powerful contributions to the field. Each paper is introduced with a brief summary of its contribution to the development of our understanding of object loss. This valuable resource thus provides the serious student of object loss with a ready source of the most important materials on the subject. Contributors: Karl Abraham, Sol Altschul, John Bowlby, Helene Deutsch, J. Marvin Eisenstadt, George Engel, Joan Fleming, Sigmund Freud, Erna Furman, Robert Furman, Edith Jacobson,
