Thomass book of everyday prayers celebrates love, friendship, birthdays, and weddings--welcoming grace and joy into the lives of people of all ages. (Motivation)

Lists and describes both published and unpublished choral works by some 100 Afro-American composers and arrangers, encompassing works representing all styles from four-part settings to avant-garde pieces. The bulk of the book is an annotated list of compositions in tabular form, organized alphabetically by composer's name, listing publication dates and number of pages, vocal ranges, type of accompaniment, publishers, and catalog number. Includes a listing of collections, biographical sketches, a discography, and addresses of publishers and composers. Useful for conductors and researchers. Looking and Listening: Conversations between Modern Art and Music invites the art and music lover to place these two realms of creative endeavor into an open dialog. Although the worlds of music and visual art often seem to take separate paths, they are usually parallel. Conductor and art connoisseur Brenda Leach takes unique pairings of well-known visual art works and musical compositions from the twentieth century to identify the shared sources of inspiration, as well as similarities in theme, style, and technique, to explore the historical and cultural influences on the great artists and composers in the twentieth century. Looking and Listening asks and answers: What does jazz have in common with paintings by Stuart Davis and Piet Mondrian? How did Gerstwin's Rhapsody in Blue affect the work of artist Arthur Dove? How did painter Georgia O'Keeffe and composer Aaron Copland capture the spirit of a youthful America entering the twentieth century? What did Kandinsky and Schoenberg share in their artistic visions? Leach takes readers on a whirlwind tour of the lives of these artists, surveying many of the key movements in the twentieth century by comparing representative works from the modern masters of the visual arts and music. Leach's refreshing and innovation approach will interest those passionate about twentieth-century art and music and is ideal for any student or instructor, museum docent, or music programmer seeking to draw the lines of connection between these two art forms.

He also addresses concerns about how dance performance is documented, including issues around spectatorship and the display of sexuality, the relationship of Ailey's dances to civil rights activism, and the establishment and maintenance of a successful, large-scale Black Arts institution."--Jacket.

Guidance for Leaders Seeking a Richer Way to Employ Worship Music Worship expert Constance Cherry offers comprehensive guidance to Christian leaders seeking a deeper, richer way to employ worship music in engaging ways for twenty-first-century worshippers. Following Cherry's successful book *The Worship Architect*, this work helps Christian leaders think theologically and act pastorally about worship music in their churches. It addresses larger issues beyond the surface struggles of musical styles and provides tools to critically evaluate worship songs. The book is applicable to all Christian traditions and worship styles and is well suited to both the classroom and the local church. Each chapter concludes with suggested practical exercises, recommended reading, and basic vocabulary terms.
