This Book portrays God's calling of an Afro-American lad from the segregated Southern USA, in 1957, and elevated him and his wife, Dorothy, to become two of the most outstanding Black Pioneer Missionaries in World Missions, today! They have evangelized and planted churches in over 95 countries, and even more extensively, in the 23 countries where Christians in Action Missions has ministries. You will experience glimpses of fifty years of the Taylor's life and ministry, beginning with Elgin's call to missions in 1957, while in the USMarines. It Moves to their service as the First Black Missionaries to Japan, 1959-64; Elgin Pastored, studied Japanese, and attended The University of Maryland, earned his BA degree, and later earned his MTh in California. Dorothy, a high school teacher, taught at Okinawa Christian School and ran the youth ministry. They transferred to Nigeria, Africa, but due to a civil war, were evacuated to London, England, where they founded a Bible College, an Evangelical Church, and directed CinA's Europe, Africa, and India Ministries for 15 years. Returning to America, 1980, they worked at the US Center for World Missions, Pasadena, CA with Dr Ralph Winters. In 1982, Elgin was elected CEO of CinA Missions International, (the only known Afro-American Director of a multi-ethnic, international, cross cultural ministry during this time). The book closes, with the spotlight on their present involvement in Ghana, West Africa, where they lead medical/outreach teams, build churches and schools, bore fresh water wells, and hold leadership seminars. They were appointed Chief and Queen Mother in the Broang Ahafo Region by the King, Ohmahene Okatakayie Kodom IV, in 2001. Today, they are blessed with much remaining fruit, in both the low places of the streets, to the palaces of Kings, to God be the Glory!

Popular television host and minister, Andrew Wommack shares sixteen of his best teachings in this powerful new book. Teachings include sections from some of his most popular titles: Better Way To Pray, God Wants You Well, The War is Over, Believer's Authority, Spirit Soul & Body, You've Already Got It, The True Nature of God, The Holy Spirit, True Christianity, Hardness of Heart, The Effects of Praise, Grace: The Power of the Gospel, Harnessing Your Emotions, Staying Full of God, and more. The power to live a holy life does not come from your works, but only through His grace. Discover rest in knowing that Jesus wants you to live in peace, not condemnation. Andrew Wommack, seen nationwide on his television broadcast, The Gospel Truth, brings a remarkable revelation of God's grace for readers today!

Guide to Telecommunications Technology focuses on the technology that forms the basis for all voice and data networks. The book discusses fundamental signaling principles and explains how early telephone and computer inventions influenced modern technology. Chapters explore topics such as switching, datatransmission, broadband, wireless LANs, and network access methods. Techniques and tools involved in recognizing and addressing information security threats are also covered. The book concludes with a chapter on voice-over-network and convergence technologies, encouraging students to synthesize what they have learned about the traditionally separate fields of telephony and data technologies. Guide to Telecommunications Technology provides a solid foundation for more advanced studies in voice and data networking.

For the FBI and its partners, 2012 was a year that reminded us once again of the seriousness of the security threats facing our nation. During the year, extremists plotted to attack—unsuccessfully, thanks to the work of our Joint Terrorism Task Forces—the U.S. Capitol, the New York Federal Reserve Bank, and other landmarks on U.S. soil. Tragically, on the 11th anniversary of 9/11, a hateful attack in Benghazi took the lives of the U.S. Ambassador to Libya and three other Americans. In the cyber realm, a rising tide of hackers took electronic aim at global cyber infrastructure, causing untold damages. High-dollar white-collar crimes of all kinds also continued to siphon significant sums from the pocketbooks of consumers. And in Newtown, Connecticut, 20 young children and six adults lost their lives in one of the worst mass shootings in American history, ending a year of violence that saw similar tragedies around the country.

Creating and maintaining health becomes more complicated and expensive by the heartbeat. "Take Back Your Body"] offers manageable, 500-word tips that are quick to read and simple to implement-plus many ways to save time and money. From a four-minute recipe for the Ultimate Smoothie to a five-minute workout, readers of "Take Back Your Body" shift from Health Care to Self Care with simple changes. Plus-they get healthier while saving hundreds of dollars a month at both the market and the pharmacy. Using humor and real-life stories of anonymous clients, "Take Back Your Body" offers practical ways for readers to save money and improve their health simultaneously. In a concise, entertaining, can-do format, chapters include: Food as Medicine-With A Sensual and Savory Experience on Top Exercise for the Rest of Us How Sex and Meditation Get You to the Same Place-and other Lifestyle Tips My Favorite Herbs for Healing and Prevention Special Issues for Women Special Issues for Men Time Savers (since no one has time to eat whole foods and exercise)

COMMUNICATION MOSAICS: AN INTRODUCTION TO THE FIELD OF COMMUNICATION, 8E draws from the most up-to-date research, theories, and technological information to provide both an overview of the field and practical applications you can immediately use to improve your personal, professional, and public communication skills. Extremely student friendly, the text combines the author's signature first-person narrative style with popular student commentaries. It introduces the basic processes and skills central to all communication contexts and then explains how these aspects of communication are applied in specific contexts such as interpersonal and public speaking. New coverage in Chapter 13 walks you step-by-step through the process of planning and preparing a public speech. As you progress through the text, each chapter ends with a case study enabling you to put what you learn into practice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book is based on many years of teaching statistical and thermal physics. It assumes no previous knowledge of thermodynamics, kinetic theory, or probability---the only prerequisites are an elementary knowledge of classical and modern physics, and of multivariable calculus. The first half of the book introduces the subject inductively but rigorously, proceeding from the concrete and specific to the abstract and general. In clear physical language the book explains the key concepts, such as temperature, heat, entropy, free energy, chemical potential, and distributions, both classical and quantum. The second half of the book applies these concepts to a wide variety of phenomena, including perfect gases, heat engines, and transport processes. Each chapter contains fully worked examples and real-world problems drawn from physics, astronomy, biology, chemistry, electronics, and mechanical engineering.

In this comprehensive guide to pottery Kenneth Clark explains with the help of practical and informative text together with step-by-step illustrations and examples of finished work the various aspects of pottery. These include techniques of wedge making, pinching, coiling, slab building, throwing, joining, moulding and turning. In addition Clark gives full details on techniques of decoration, tools and equipment, kilns and firing, glazes, pigments and stains finishing with a full glossary. He also suggests ways in which potters can extend their techniques of production to meet the needs of changing markets and conditions, whilst trying to keep a balance between the work of the artist innovator and the production potter or ceramicist.
