Zig Ziglar said years ago that, "You can get everything you want in life, if you help enough people get what they want." And that's what Let's Get Real or Let's Not Play is about. It's a book for people who want to escape the feeling of "selling", and embrace the notion of helping the client solve their problems; the problems that matter to them, in a way that resonates with their larger objectives.

This new book is a vital resource for any teacher or administrator to help students tackle issues of race, class, gender, religion, and cultural background. Authors Martha Caldwell and Oman Frame, both lifelong educators, offer a series of teaching strategies designed to encourage conversation and personal reflection, enabling students to think creatively, rather than stereotypically, about difference. Using the Transformational Inquiry model, your students will learn to explore their own identities, share stories and thoughts with their peers, learn more through reading and research, and ultimately take personal, collaborative action to affect social change in their communities. You'll learn how to: Facilitate dynamic classroom discussions in a safe and empathetic environment Encourage students to think and talk objectively about complex and sensitive issues such as race, gender, and social class Help students cultivate valuable communication, critical thinking, and writing skills while developing their identities in a healthy way. Develop your teacher identity in a positive way to better support your students' growth and self-discovery The strategies in this book can be adapted for any middle school or high school curriculum, and each chapter includes a variety of lesson plans and handouts that you can use in the classroom immediately. These resources can also be downloaded from the authors' website: [www.ichangecollaborative.com](#).

Lets Get Real invites readers to learn the facts about property investing. It starts by encouraging you to clarify your current financial and personal situation; then: Fast-forward and define what you want life to look like in years to come; and Develop a wealth creation plan to achieve the lifestyle you desire when you no longer want to work. The authors concentrate on the why to rather than the how to, believing that once you have your mindset focused, your goals set and an understanding of the work involved, then the nuts and bolts of property investing are secondary. The book examines why property is still the best way to create wealth, despite tighter lending criteria and lower affordability. It reviews the challenges other generations faced, giving current property investors some perspective. With cartoons, graphics and motivational quotes throughout, this book is an easy read, but its not always easy to read the authors ask you some hard questions along the way. They believe they have to its all part of getting real about property investing to make sure you get real results.

Drawing on his personal fascinating story as a prosecutor, a defendant, and an observer of the legal process, Paul Butler offers a sharp and engaging critique of our criminal justice system. He argues against discriminatory drug laws and excessive police power and shows how our policy of mass incarceration erodes communities and perpetuates crime. Controversially, he supports jury nullification—or voting "not guilty" out of principle—as a way for everyday people to take a stand against unfair laws, and he joins with the "Stop Snitching" movement, arguing that the reliance on informants leads to shoddy police work and distrust within communities. Butler offers instead a "hip hop theory of justice," parsing the messages about crime and punishment found in urban music and culture. Butler's argument is powerful, edgy, and incisive.

A Most-Anticipated Book of 2021: BuzzFeed \* The Millions \* Cosmopolitan \* Electric Literature \* LGBTQ Reads \* Paperback Paris One of Advocate's "22 LGBTQ+ Books You Absolutely Need to Read This Year" "An intimate saga that brims with necessary conversations about cultural identity." —O, The Oprah Magazine, "32 LGBTQ Books That Will Change the Literary Landscape in 2021" It is 2015, weeks after the Supreme Court marriage equality ruling, and all Sebastian Mote wants is to settle down. A high school art history teacher, newly single and desperately lonely, he envies his queer students their freedom to live openly the youth he lost to fear and shame. When he runs into his childhood friend Oscar Burnham at a wedding in Washington, D.C., he can't help but see it as a second chance. Now thirty-five, the men haven't seen each other in more than a decade. But Oscar has no interest in their shared history, nor in the sense of belonging Sebastian craves. Instead, he's outraged by what he sees as the death of gay culture: bars overrun with bachelorette parties, friends coupling off and having babies. For Oscar, conformity isn't peace, it's surrender. While Oscar and Sebastian struggle to find their place in a rapidly changing world, each is drawn into a cross-generational friendship that treads the line between envy and obsession: Sebastian with one of his students, Oscar with an older icon of the AIDS era. And as they collide again and again, both men must reckon not just with one another but with themselves. Provocative, moving, and rich with sharply drawn characters, Let's Get Back to the Party introduces an exciting and contemporary new talent.
