The authors have tirelessly travelled through the country-sides of Sweden, Ireland, England, Holland, France, Greece, Tuscany, Majorca, and Greece in search of the best examples of rural homes which reflect the tradition and culture of their inhabitants. In 400 pages of luxurious photographs, including details and descriptions, this new book affords fans of country living all the inspiration and diversity they could desire.

Country living has long been associated with a rustic way of life and a sense of tradition. This strong appreciation of rural traditions does not mean, however, that all country homes are relics of the past.

Contemporary solutions and innovative ideas work equally well when old spaces are given over to new uses, converted, renovated or just revived. A country house is intimately connected to the land and all its seasons and is built to last using natural, indigenous materials. These are the core qualities of the countryside style, whether old or new. Full of inspiration on how to achieve that highly desirable ideal of comfortable country living combined with the clean lines and edited design of today, Countryside Living shows work by architects and designers who have helped evolve the country house look.

Containing never before seen images, this new book is a source of inspiration to interior designers,

have dealt with pressing local and global socio-political issues relating to the environment and rural life, including changing demographics and rural practices, local environmental concerns, and global climate activism. Providing a thorough examination of the representation of competing histories, visions and politics, Sekules asks whether museums and heritage projects can engage actively in shaping cultures, as well as reflecting them. At the core of the analysis is an examination of the findings from a project in the UK's East Anglia, 'The Culture of the Countryside', from which emerged themes closely bound to different countryside landscapes, peoples and heritage. Aimed at practitioners and students alike,

county' of Herefordshire. A Country Life is a wide-ranging kaleidoscope of memories and observations, embracing the countryside, gardens, cooking, and remembrances of things both long gone and only yesterday. The author writes lyrically of the arrival of the bright green tarragon shoots in spring; of the delights of eating al fresco; of making sorbets from blackberry and quince; of the russet beech hedges in winter and the sweet nostalgia that comes from unpacking Christmas decorations. The keynote of A Country Life is delight--a portrait of life in the English countryside, which seems as old as time itself.

By examining a range of experiences from both the north and south of Ireland, this book asks what the ideal of sustainable development might mean to specific rural groups and how sustainable development goals have been pursued across the policy spectrum. It assesses the extent of commitment to a living countryside in Ireland and compares various opportunities and obstacles to the actual achievement of sustainable rural development. How different sectors of rural society will be challenged in terms of future survival provides an overarching theme throughout.

The contribution of rural women to the creation and expansion of the Japanese nation-state is undeniable. As early as the nineteenth century, the women of central Japan's Nagano prefecture in particular provided abundant and cheap labor for a number of industries, most notably the silk spinning industry. Rural women from Nagano could also be found working, from a very young age, as nursemaids, domestic servants, and farm laborers. In whatever capacity they worked, these women became the objects of scrutiny and reform in a variety of nationalist discourses--not only because of the importance of their labor to the nation, but also because of their gender and domicile (the countryside

was the centerpiece of state ideology and practice before and during the war, during the Occupation, and beyond). Under the Shadow of Nationalism explores the interconnectedness of nationalism and gender in the context of modern Japan. It combines the author's long-term field research with a painstaking examination of the documents behind these discourses produced at various levels of society, from the national (government records, social reformers' reports, ethnographic data) to the local (teachers' manuals, labor activists' accounts, village newspapers). It provides a wide-ranging yet in-depth look at a key group of Japanese women as national subjects through the critical chapters of Japanese

Rural queer experience is often hidden or ignored, and presumed to be alienating, lacking, and incomplete without connections to a gay culture that exists in an urban elsewhere. Queering the Countryside offers the first comprehensive look at queer desires found in rural America from a genuinely multi-disciplinary perspective. This collection of original essays confronts the assumption that queer desires depend upon urban life for meaning. By considering rural queer life, the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices

of identity formation. The book's focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders. *Queering the Countryside* highlights the need to rethink notions of "the closet" and "coming out" and the characterizations of non-urban sexualities and genders as "isolated" and in need of "outreach." Contributors focus on a range of topics—some obvious, some delightfully unexpected—from the legacy of Matthew Shepard, to how heterosexuality is reproduced at the 4-H Club, to a look at sexual encounters at a truck stop, to a queer reading of *The Wizard of Oz*. A journey into an
