This book gathers the proceedings of an international conference held at Empa (Swiss Federal Laboratories for materials Science and Technology) in D ü bendorf, Switzerland, in July 2020. The conference series was established by the International Society of Maintenance and Rehabilitation of Transport Infrastructure (iSMARTi) for promoting and discussing state-of-the-art design, maintenance, rehabilitation and management of pavements. The inaugural conference was held at Mackenzie Presbyterian University in Sao Paulo, Brazil, in 2000. The series has steadily grown over the past 20 years, with installments

# Online Library Morth Specifications 5th Revision

hosted in various countries all over the world. The respective contributions share the latest insights from research and practice in the maintenance and rehabilitation of pavements, and discuss advanced materials, technologies and solutions for achieving an even more sustainable and environmentally friendly infrastructure.

Modern highway engineering reflects an integrated view of a road system's entire lifecycle, including any potential environmental impacts, and seeks to develop a sustainable infrastructure through careful planning and active management. This trend is not limited to developed nations, but is

## Specifications 5th Revision

At a UN General Assembly Special Session in 1999, governments recognised unsafe abortion as a major public health concern, and pledged their commitment to reduce the need for abortion through expanded and improved family planning services, as well as ensure abortion services should be safe and accessible. This technical and policy guidance provides a comprehensive overview of the many actions that can be taken in health systems to ensure that women have access to good quality abortion services as allowed by law.

This comprehensive book covers all major aspects of the design and maintenance of port facilities, including port planning, design
