~~*Provides hands-on samples of forms, policies, and procedures that can be easily customized, reproduced, and implemented in a medical practice. The manual is designed for all medical practices, regardless of organizational size, type, or specialty mix and provides practical tools that all providers, administrators, supervisors, and staff can use*---Provided by publisher.~~

~~This popular bestseller is an easy-to-use manual complete with customizable medical office policies. Covering more than 100 of today's most pressing events, this manual helps practice administrators and managers set procedures and policies for managing operational, financial, and risk issues, as well as personnel, disaster planning, and exposure control.~~

~~The information in these pages will either excite you into beginning that house-call practice right away or scare you into keeping your day job. Either way, I'm glad you've chosen to learn about my happiness with beginning a house-call practice and to learn from my struggles to maintain a business in the nation's current health-care state. Are you looking for a step-by-step guide on how to start a house-call practice? Are you looking for a few examples from an expert in the field of house calls to help guide your decision making? If you've answered yes to these questions, this is the book for you. Making medical house calls is an extremely rewarding and profitable niche practice that can be started with little or no overhead. If you already love or think you will love going into the home setting to provide primary care when health care is often scarce or unavailable, this is the field for you. This book is written with nuances and scenarios of a house-call practice for an advanced practice nurse, but if you are a physician assistant, physician, or any other practitioner looking to begin a housecall practice, there is plenty of information here for you too!~~

~~This policy and procedure book is a valuable resource for new or existing cardiac surgery programs. It provides support for each procedure in the cardiac surgery environment to include standards of practice, risk management, staffing competencies, and quality indicators to optimize care of the cardiovascular surgery patient. The policy manual is based upon AORN standards and meets JCAHO standards for the operating room environment.~~

~~Medical Housecalls are back and they are more profitable than ever! People often prefer house calls to visiting clinics or offices because house calls feel personalized and tailored to the specific need of the patient, as opposed to office visits, where the patient is treated like... well, just another patient.~~

~~ACN Procedure Manual for Critical Care offers comprehensive coverage of procedures unique to the critical care environment. This edition is thoroughly revised, updated, and expanded to reflect the current state of critical care nursing practice. Information is presented in a highly illustrated step-by-step format with supporting rationales for each step of every procedure. This resource also emphasizes evidence-based practice and provides complete coverage of the latest clinical studies. Each procedure is organized in a consistent, step-by-step format with categories that include: prerequisite nursing knowledge, equipment, patient and family education, patient assessment and preparation, procedure, expected outcomes, unexpected outcomes, patient monitoring and care, and documentation. Each procedure is supported by research-based data. Advanced practice procedures are noted with a special AP icon indicating that these procedures should be done only by qualified personnel. 19 new procedures discuss topics such as combitube insertion and removal, transesophageal echocardiography, and patient controlled analgesia. A new Quick Tips feature - located in the Special Considerations column for quick reference - highlights key words and key concepts for each procedure. A new web-enhanced feature at the beginning and end of each procedure directs readers to online supplement materials such as additional art and photographs. Web links connect users to hundreds of continually updated web sites that contain information relevant to critical care nursing practice. 200 new line drawings clearly illustrate important techniques and bring key procedures to life.~~

~~Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Lippincott Nursing Procedures, 8e, is a start-to-finish guide to more than 400 nursing procedures--from basic to advanced. This reference outlines every procedure, lists equipment, details each step, and includes rationales and cautions to ensure patient safety and positive outcomes. Concise, clear content targets key information needed to perform nursing procedures safely and accurately at the bedside. Tips, alerts, checklists, illustrations, and tables provide clarity and quick access to key procedural information. Organized alphabetically for easy accessibility, the book includes basic and advanced procedures on key topics, including infection control, specimen collection, physical treatments, drug administration, IV therapy, and hemodynamic monitoring, as well as procedures related to body systems such as chest tubes, peripheral nerve stimulation, and intra-abdominal pressure monitoring.~~
