"Rafting Rise is a terrific book, the richly detailed evocation of an entire world, and an important contribution to the literature of the rural South."--Ted Kooser "Rafting Rise has the strength of extended narrative and the quickness of lyric poetry. There is a haunting, visionary quality to Joe Survant's dramatic poem, bringing to life a world of log rafting and floodplain dwellers along the Rough and Green Rivers in 1916 and 1917. The sections are snapshots and ballads of witness, a counterpoint of voices that open a window on this long-ago time and place, of giant catfish and spells, logjams and river witch. The phrases shine and the lines sing out, and the dead come back and speak again, as the real enters the realm of legend."--Robert Morgan "Joe Survant writes about turn-of-the-century backwoods America with an uncanny sense of firsthand knowledge. He knows whereof he writes, and he writes with an authority that derives from a deep-seated respect for the lives of river folk and trappers and the lone inhabitants of 'womenless shacks.' And for all the harsh realities of a life hacked out of such rough terrain, Mr. Survant never overlooks the beauty of 'sycamores grazing by the creek,' wild grapes growing in the river bottoms, or a thicket lit by trumpet weed. To read this book is to enter a world, and to follow its narrative is to be carried on the current of a deeply compelling adventure."--Sherod Santos Set in the central Kentucky basins of the Rough, Green, and Ohio Rivers in 1916-17, Rafting Rise joins the storytelling virtues of fiction with the intensity of the poetic lyric to reach a wider audience, including readers of poetry, lovers of good tales, and those interested in the small events of history recreated through the lives of carefully imagined characters. The book's central action is the rafting of logs in winter down the rivers to the lumber mills in Evansville, Indiana. Survant re-creates the whole fabric of the hardscrabble society that lives by this perilous trade. They are tough people, such as Carl Peters, stranded on a raft run aground in a freezing rain, walking in a figure eight all night to stay alive while his fellow rafter Tom Simpson, who didn't make it, ". . . lay/like frozen wood/in the bottom of our boat." Elsewhere, in love poems and poems celebrating the lush riverine landscape, Survant conveys the simple, sensuous moments that punctuate this hard life. Here is Bill Balcom at a camp meeting, eighteen and chafing for adventure on the river: "When I took/a piece of Susie's buttermilk pie,/I saw her looking,/and when I ate/I imagined/ her taste." But none of the characters is more vivid than Sallie, the female protagonist, a half-mad medicine woman living with her dogs in whatever shelter she can find. Survant gives Sallie such a deep empathy with the countryside and its creatures that she becomes the spirit of the place. But Sallie pays dearly for her empathy with nature, hearing voices over which she has no power. Worse, she has the curse of prophecy, can see the hand of death before it strikes, and is as much feared as needed by the community. Through these and a handful of other characters, Survant fashions a verse epic of Kentucky on the eve of the entry of the United States into World War I. This volume continues the experiment begun in his earlier *Anne & Alpheus*, combining poetry and narrative to tell the story of several generations connected by place and memory across the artificial boundaries of time. Joe Survant is professor of English at Western Kentucky University and author of *The Presence of Snow in the Tropics*; *Anne & Alpheus, 1842-1882*, winner of the Arkansas Poetry Award.

and live to tell about it. Exploration is Colin Angus' calling. It is not only the tug of excitement and challenge that keeps sending him on death-defying journeys down some of the world's most powerful waterways, it is a desire to know a place more intimately than you could from the window of a train, to feel the soul of a place. Angus emphasizes that rivers have always been key to the development of complex societies and the rise of civilizations, offering as they do irrigation, transportation, hydroelectric power, and food. But, as *Lost in Mongolia* captures with breathtaking detail, while they give plenty, the great rivers also take away in an instant. In *Lost in Mongolia*, Colin Angus takes readers through never-before-seen territory and his wonderful sense of adventure and humour come through on every page.

From their rise in the high Andes of Peru, the two sister rivers, Urubamba and Apurimac, join to form the Amazon, the world's largest and most powerful river, crossing an entire continent in search of the sea. This book traces Francois Odendaal's three expeditions to raft this extraordinary river. It is a story of adventure, courage and personal experience, as well as a geographical, environmental and historical celebration of the continent of South America.

"The day every person on earth lost his and her memory was not a day at all. In people's minds there was no actual event. . . and thus it could be followed by no period of shock or mourning. There could be no catharsis. Everyone was simply reset to zero." On Day Zero, the collapse of civilization was as instantaneous as it was inevitable. A mysterious and oppressive movement rose to power in the aftermath, forcing people into isolated communes run like regimes. Kayle Jenner finds himself trapped on a remote beach, and all that remains of his life before is the vague and haunting vision of his son. . . . Kayle finally escapes, only to find a broken world being put back together in strange ways. As more memories from his past life begin returning, the people he meets wandering the face of a scorched earth—some reluctant allies, others dangerous enemies—begin to paint a terrifying picture. In his relentless search for his son, Kayle will discover more than just his lost past. He will discover the truth behind Day Zero—a truth that makes both fools and gods of men. Cheryl Richardson believes that today we face a crisis of spirit and a longing for a sense of purpose that will give meaning and direction to our lives. This crisis, caused by a disconnection from our inner selves, leaves us feeling empty and lost. In this book, she hopes to address the recurring problems that she's witnessed during her years of coaching clients and speaking to self-help audiences throughout the world. Part mentor, part friend, she picks up where *Take Time for Your Life* and *Life Makeovers* left off in this practical, step-by-step plan that should help to build confidence and eliminate self-defeating behaviours. By learning new self-honouring skills, like setting boundaries with grace and love or developing greater self discipline, readers should then be better able to own and use their unique talents and gifts.

Learning the Story of Scars After the axe-head buried itself in his ankle, my father clung to the log he was splitting, squeezing his eyes like fists. Twelve, he logged those woods for years with his father--Arkansas, the great depression, doing whatever they could. Groaning, he jerked and jerked the axe like a pump handle, he screamed and went on pumping until the foot fell back, hinged by the ankle, white and spurting. With a bandana he held it and held it while Arkansas flooded, and saw his father running, his own axe raised ready to kill whatever snake slashed the heel of his son. I learned that scar like a tree split by lightning, healed over, knew my father had in him a boy who had suffered alone in a forest. "McDonald's evocation of nature and farming is impressively simple, but suggests mystery and depth."--*Publisher's Weekly* "McDonald draws upon his personal vision of West Texas . . . offering a strong and sensitive image of the land, its people, its sense of space and struggle."--*Books of the Southwest* "We are privy to a consciousness that encompasses Texas from the Gulf to the Caprock, from oxen-slow days to jet lag . . . Rafting the Brazos makes us wish the poet could . . . do nothing but chronicle the spirals of West Texas hawks."--*Dallas Morning News* "West Texas, the land and its people, provide both the subject and the soul of McDonald's powerful poetry."--*Writers at Work*
