An engaging tale – written in verse – about a handsome African Grey Parrot, Nebuchadnezzar the Third, and his unlikely playmate, Belinda – a bright and busy bee. Nebuchadnezzar lives in the deep jungles of Africa and comes to rich and colourful life when he takes to the air, showing off his splendid plumage as he swoops and dives with his fellow fliers. But every young creature needs a playmate and some fun, and this is where Belinda the Bee comes in. She's Nebuchadnezzar's good friend, and after a day's work they join together to play jungle hide-and-seek. Lots of laughs and giggles later, they settle down for a good's night's sleep. Claire

Norden's now familiar style of illustration is cheerful and bright, and holds great appeal for young readers.

When you're a hypochondriac, there are a million different things that could be wrong with you, but for Izzy, focusing on what could be wrong might be keeping her from dealing with what's really wrong.

"How do I know I covered all the requirements? Where do I begin? When should I stop? Did I miss something that will result in unpleasant surprises down the road?" If you are a Business Analyst, these questions will certainly mean something to you. You've probably asked yourself these questions at one point or another when you were assigned your early requirements development tasks. In this book, I introduce a requirements development roadmap that will guide you from start to finish. It is a plan carefully prepared and organized around consecutive stations. At each station, I tell you:

1. The target objective, and why you need to think about that particular objective at that specific point in time
2. Which elicitation techniques will best serve the objective, and which questions to ask in order to capture the information you need
3. Which analysis tools to apply in order to analyze the information from different angles
4. How to document the output of the exercise that you just performed

Explaining both why theory is important and how to use it, Lois Tyson introduces

beginning students of literature to this often daunting area in a friendly and approachable style. The new edition of this textbook is clearly structured with chapters based on major theories that students are expected to cover in their studies. Key features include: coverage of major theories including psychoanalysis, Marxism, feminism, lesbian/gay/queer theories, postcolonial theory, African American theory, and a new chapter on New Criticism (formalism) practical demonstrations of how to use these theories on short literary works selected from canonical authors including William Faulkner and Alice Walker a new chapter on reader-response theory that shows students how to use their personal responses to literature while avoiding typical pitfalls new sections on cultural criticism for each chapter new 'further practice' and 'further reading' sections for each chapter a useful "next step" appendix that suggests additional literary titles for extra practice. Comprehensive, easy to use, and fully updated throughout, Using Critical Theory is the ideal first step for students beginning degrees in literature, composition and cultural studies.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now

much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...
