Best friends, big fans, a mysterious webcomic, and a long-lost girl collide in this riveting novel, perfect for fans of both Cory Doctorow and Sarah Dessen, & illustrated throughout with comics. Once upon a time, two best friends created a princess together. Libby drew the pictures, May wrote the tales, and their heroine, Princess X, slayed all the dragons and scaled all the mountains their imaginations could conjure. Once upon a few years later, Libby was in the car with her mom, driving across the Ballard Bridge on a rainy night. When the car went over the side, Libby passed away, and Princess X died with her. Once upon a now: May is sixteen and lonely, wandering the streets of Seattle, when she sees a sticker slapped in a corner window. Princess X? When May looks around, she sees the Princess everywhere: Stickers. Patches. Graffiti. There's an entire underground culture, focused around a webcomic at IAMPrincessX.com. The more May explores the webcomic, the more she sees disturbing similarities between Libby's story and Princess X online. And that means that only one person could have started this phenomenon--her best friend, Libby, who lives.

On the 75th anniversary of the atomic bombings of Hiroshima and Nagasaki comes this heart-pounding account of the war-room drama inside the cabinets of the United States and Japan that led to Armageddon on August 6, 1945. Here are the secret strategy sessions, fierce debates, looming assassinations, and planned invasions that resulted in history's first use of nuclear weapons in combat, and the ensuing chaotic days as the Japanese government struggled to respond to the reality of nuclear war. During the closing months of World War II, as America's strategic bombing campaign incinerated Japan's cities, two military giants locked in a death embrace of cultural differences and diplomatic intransigence. The leaders of the United States called for the "unconditional surrender" of the Japanese Empire while developing history's deadliest weapon and weighing an invasion, Downfall, that would have dwarfed D-Day. Their enemy responded with a last-ditch plan termed Ketsu-Go, which called for the suicidal resistance of every able-bodied man and woman in "The Decisive Battle" for the homeland. But had Emperor Hirohito's generals miscalculated how far the Americans had come in developing the atomic bomb? How close did President Harry Truman come to ordering the invasion of Japan? Within the Japanese Supreme Council at the Direction of War, a.k.a. "The Big Six," Foreign Minister Shigenori Tōgō risked assassination in his crusade to convince his dysfunctional government, dominated by militarist fanatics, to save his country from annihilation. Despite Allied warnings of Japan's "prompt and utter destruction" and that the Allies would "brook no delay," the Big Six remained defiant. They refused to surrender even after the atomic bombings of Hiroshima and Nagasaki. How did Japanese leaders come to this impasse? The answers lie in this nearly day-by-day account of the struggle to end the most destructive conflict in history.

News anchor Caroline Ellis' sixteenth birthday sets into motion a series of events that have been fated for centuries. A descendant of Virginia Dare, the first child born in the lost colony of Roanoke, and unaware of her birthright as the heir to the throne of the Light Fae, it isn't until Caroline begins a tumultuous relationship with Devilyn Reilly that the truth of her heritage is revealed. Devilyn is the only Fae who is both of the Light and of the Dark, and struggles to maintain that precarious balance to avoid succumbing to the power of the Dark within him. He is the only one who can save Caroline from those who would destroy her and destroy all hope for unity among the Fae. He promises Caroline that he will protect her at all costs, even when it means protecting her from himself. Told from the alternating perspectives of Caroline and Devilyn, Fae draws on mysteries, myths and legends to create a world, and a romance, dangerously poised between Light and Dark. Praise for the Fae trilogy "A phenomenal series."—Margaret Stohl, #1 New York Times bestselling coauthor of Jo & Laurie "Lovers you must buy a copy!"—Nicky Whelan, actress, Hall Pass, Franklin & Bash "Since the Twilight series recently came to an end, the search for the next hit teen novel is on. Fortunately, with C.J. Abedi's first book in the Fae series, there may be no need to look any further."—Firsttoknow.com

The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
