It is summer 2001 and Sami Traifi has escaped his fraying marriage and minimal job prospects to visit Damascus. In search of his roots and himself, he instead finds a forgotten uncle in a gloomy back room, and an ugly secret about his beloved father... Returning to London, Sami finds even more to test him as his young wife Muntaha reveals that she is taking up the hijab. Sami embarks on a wilfully ragged journey in the opposite direction, away from religion □ but towards what? As Sami struggles to understand Muntaha's newly-deepened faith, her brother Ammar's hip hop Islamism and his father-in-law's need to see grandchildren, so his emotional and spiritual unraveling begins to accelerate. And the more he rebels, the closer he comes to betraying those he loves, edging ever-nearer to the brink of losing everything... Set against a powerfully-evoked backdrop of multi-ethnic, multi-faith London, The Road from Damascus explores themes as big as love, faith and hope, and as fundamental as our need to believe in something bigger than ourselves, whatever that might be.

□ Deep inside you know Who You Truly Are. We all do. It's not a question of discovering it, it's a question of claiming it. Being it. And that's actually easier done than said. We're all just one decision away from The Essential Path. It's a path that could change a world that deeply yearns for a new direction. □ Neale Donald Walsch, author, The Essential Path Our modern era is plagued by increasing alienation□we are seeing an □us against them□ world. Everywhere we turn, we find ourselves divided from each other as never before across political, economic, social, and spiritual lines. As humanity is being torn apart right before our eyes□separating many of us from our friends and even our loved ones,

from our hopes and dreams, from the natural world, and from so much that gives meaning and value to our lives—people are blaming everyone and everything around them for the collective problems that we have created ourselves. We are turning against each other, rather than to each other, just when we need each other the most. Bestselling author of *Conversations with God* Neale Donald Walsch offers a radical solution to the growing problem of humanity's alienation. He invites us to question our basic assumptions about ourselves, about each other, about life and how it works, and about God, and to rethink the very definition of humanity. *The Essential Path* challenges every human to make a Daring Decision—to look at who we are and how we can choose to be, in a planet-altering new way. With insight and spiritual perceptivity, Walsch peers into the heart of a broken, divided society, prompting us to ask the critical questions that have the power to transform our world.

Type 9: *The Peaceful Mediator*, from *The Enneagram Collection*, is for anyone who loves the Enneagram and wants to go deeper with this interactive book exploring the unique motivations, longings, and strengths and weaknesses of a Type 9—those who have a core desire to have inner stability and peace of mind. The Enneagram has never been more popular. This ancient personality typing system identifies nine types of people and how they relate to one another and helps people discover what motivates them, their fears, and how best to interact with others. With the growing popularity of this self-assessment tool in all spheres of life, including personal relationships, professional relationships, faith communities, students, and even pop culture, these interactive books are great for anyone newly interested in the Enneagram or the longtime Enneagram enthusiast. With space to journal about the unique motivations, longings, and strengths and weaknesses of a Type 9—those who have a core desire to have inner stability and peace of mind, Beth McCord shows how to transform self-limiting behaviors into life-enhancing personal empowerment. In addition to deeply informative content from Enneagram expert Beth McCord, the pages include interactive prompts and space provided for reflection and notes. Each book teaches about the strengths, challenges, and opportunities for that personality type in order to lead to a more meaningful life, lasting relationships, and a deeper understanding of God and yourself.

In almost every area of production, German theatre of the past forty years has achieved a level of distinction unique in the international community. This flourishing theatrical culture has encouraged a large number of outstanding actors, directors, and designers as well as video and film artists. The dominant figure throughout these years, however, has remained the director. In this stimulating and informative book, noted theatre historian Marvin Carlson presents an in-depth study of the artistic careers, working methods, and most important productions of ten of the leading directors of this great period of German staging. Beginning with the leaders of the new generation that emerged in the turbulent late 1960s—Peter Stein, Peter Zadek, and Claus Peymann, all still major figures today—Carlson continues with the generation that appeared in the 1980s, particularly after reunification—Frank Castorf, Anna Viebrock, Andrea Breth, and Christoph Marthaler—and concludes with the leading directors to emerge after the turn of the century, Stefan Pucher, Thomas Ostermeier, and Michael Thalheimer. He also provides information not readily available elsewhere in English on many of the leading actors and dramatists as well as the designers whose work, much of it for productions of these directors, has made this last half century a golden age of German scenic design. During the late twentieth century, no country produced so many major theatre directors or placed them so high in national cultural esteem as Germany. Drawing on his years of regular visits to the *Theatertreffen* in Berlin and other German productions, Carlson will captivate students of theatre and modern German history and culture with his provocative, well-illustrated study of the most productive and innovative theatre tradition in Europe.

Organic Chemistry: A mechanistic approach combines a focus on core topics and themes with a mechanistic approach to the explanation of the reactions it describes, making it ideal for those looking for a solid understanding of the central themes of organic chemistry.

Poetry. "I remember a ship // Dammit, I meant all along / I should take that other child // presently care is a hat // a father looking out the window // time's just a driveway, / the parrot said, staring into / the thudding fog // and the future is a salesman / with his name tag flying in a void"--"Fit under here."
