~~The Fate of Africa: A History of the Continent Since...~~

The Fate of Africa is a lively and accessible history of Africa over the last fifty years. Narrative histories of individual countries with a focus on people and key events make for easy reading, though the content itself is mostly rather depressing. Meredith's approach is broadly chronological and geographical, but not strictly so.

After decades of mismanagement and corruption, most African states have become hollowed out. They are no longer instruments capable of serving the public good. Indeed, far from being able to provide aid and protection to their citizens, African governments and the vampire-like politicians who run them are regarded by the populations they rule as yet another burden they have to bear in the struggle for survival. "

First published in 2005, The Fate of Africa was hailed by reviewers as "A masterpiece....The nonfiction book of the year" (The New York Post); "a magnificent achievement" (Weekly Standard); "a joy," (Wall Street Journal) and "one of the decade's most important works on Africa" (Publishers Weekly, starred review). Now Martin Meredith has revised this classic history to incorporate important recent developments, including the Darfur crisis in Sudan, Robert Mugabe's continued destructive rule in Zimbabwe, controversies over Western aid and exploitation of Africa's resources, the growing importance and influence of China, and the democratic movement roiling the North African countries of Tunisia, Egypt, and Jordan.

The definitive story of African nations after they emerged from colonialism -- from Mugabe's doomed kleptocracy to Mandela's inspiring defeat of apartheid. The Fate of Africa has been hailed by reviewers as "A masterpiece....The nonfiction book of the year" (The New York Post); "a magnificent achievement" (Weekly Standard); "a joy," (Wall Street Journal) and "one of the decade's most important works on Africa" (Publishers Weekly, starred review). Spanning the full breadth of the continent, from the bloody revolt in Algiers against the French to Zimbabwe's civil war, Martin Meredith's classic history focuses on the key personalities, events and themes of the independence era, and explains the myriad problems that Africa has faced in the past half-century. It covers recent events like the ongoing conflict in Sudan, the controversy over Western aid, the exploitation of Africa's resources, and the growing importance and influence of China.

Presents a narrative of the last fifty years of African history, analyzing the factors which account for the political chaos, financial troubles, and civil wars which prevail in many African countries today.

WHAT DOES OUR FUTURE HOLD? In these uncertain times, this is the question on many South Africans' lips. Will we become more prosperous and less divided as a nation or remain hugely unequal and generally poor? Will the ANC split or eventually be forced into an alliance with the EFF after 2019? Could the DA rule the country after the 2024 elections? In Fate of the Nation Jakkie Cilliers develops three scenarios for our immediate future and beyond: Bafana Bafana, Nation Divided and Mandela Magic. Cilliers says the ANC is currently paralysed by the power struggle between what he calls the Traditionalists and the Reformers. It is this power struggle that has led to the inept leadership, policy confusion and poor service delivery that has plagued the country in recent years. Key to which scenario could become our reality is who will be elected to the ANC's top leadership at the party's national conference in December 2017. Whichever group wins there will determine what our future looks like. This is a book for all concerned South Africans.

The must-read summary of Martin Meredith's book: " The Fate of Africa: From the Hopes of Freedom to the Heart of Despair " . This complete summary of "The Fate of Africa" by Martin Meredith, a prominent historian and writer, outlines his assessment of the evolution of Africa after gaining independence from colonialism. He illustrates how the hope of independence has been eroded to despair as greed and ethnic resentment plunged the countries into civil war, disease, devastation, extreme poverty, totalitarian dictatorships and dependence on the West. Added-value of this summary: • Save time • Understand how the world's most promising continent gradually descended into poverty and despair • Expand your knowledge of international politics and economics To learn more, read "The Fate of Africa" and discover what led to Africa's decline, and what can be done about it.

Assesses the rising influence of the animal rights movement in Africa to find that the policies championed by animal welfare groups could lead paradoxically to the elimination of the very species that are the most cherished.

This book provides a detailed analysis of South Africa ' s actions on the UN Human Rights Council, examining the country ' s positions on civil and political rights, economic rights and development, social groups whose rights are frequently violated, and abuses in specific countries. The most detailed and comprehensive study of any country ' s record on the UN Human Rights Council to date, this book demonstrates that despite occasional support for human rights, South Africa ' s overall record ranged from opposing to failing to support human rights. This is compounded by an anti-Western or ' anti-imperial ' edge to South Africa ' s positions on the UNHRC. Using South Africa as a study case of a liberal country consistently behaving illiberally, this book therefore challenges the widespread belief in international relations theory, typically found in liberal and constructivist thought, that there is an alignment of domestic political society and foreign policy values. Addressing ongoing debates since the presidency of Nelson Mandela about the place of human rights in South Africa ' s foreign policy, South Africa and the UN Human Rights Council will be useful to students and scholars of international relations, human rights, international law, and African politics.

The question was: would he hang? In 1963, when South Africa's apartheid government charged Nelson Mandela with planning its overthrow, most observers feared that he would be sentenced to death. But the support he and his fellow activists in the African National Congress received during his trial not only saved his life, but also enabled him to save his country. In Saving Nelson Mandela, South African law expert Kenneth S. Broun recreates the trial, called the "Rivonia" Trial after the Johannesburg suburb where police seized Mandela. Based upon interviews with many of the case's primary figures and portions of the trial transcript, Broun situates readers inside the courtroom at the imposing Palace of Justice in Pretoria. Here, the trial unfolds through a dramatic narrative that captures the courage of the accused and their defense team, as well as the personal prejudices that colored the entire trial. The Rivonia trial had no jury and only a superficial aura of due process, combined with heavy security that symbolized the apartheid government's system of repression. Broun shows how outstanding advocacy, combined with widespread public support, in fact backfired on apartheid leaders, who sealed their own fate. Despite his 27-year incarceration, Mandela's ultimate release helped move his country from the racial tyranny of apartheid toward democracy. As documented in this inspirational book, the Rivonia trial was a critical milestone that helped chart the end of Apartheid and the future of a new South Africa.

In The Black Republic, Brandon R. Byrd explores the ambivalent attitudes that African American leaders in the post-Civil War era held toward Haiti, the first and only black republic in the Western Hemisphere. Following emancipation, African American leaders of all kinds—politicians, journalists, ministers, writers, educators, artists, and diplomats—identified new and urgent connections

with Haiti, a nation long understood as an example of black self-determination. They celebrated not only its diplomatic recognition by the United States but also the renewed relevance of the Haitian Revolution. While a number of African American leaders defended the sovereignty of a black republic whose fate they saw as intertwined with their own, others expressed concern over Haiti's fitness as a model black republic, scrutinizing whether the nation truly reflected the "civilized" progress of the black race. Influenced by the imperialist rhetoric of their day, many African Americans across the political spectrum espoused a politics of racial uplift, taking responsibility for the "improvement" of Haitian education, politics, culture, and society. They considered Haiti an uncertain experiment in black self-governance: it might succeed and vindicate the capabilities of African Americans demanding their own right to self-determination or it might fail and condemn the black diasporic population to second-class status for the foreseeable future. When the United States military occupied Haiti in 1915, it created a crisis for W. E. B. Du Bois and other black activists and intellectuals who had long grappled with the meaning of Haitian independence. The resulting demand for and idea of a liberated Haiti became a cornerstone of the anticapitalist, anticolonial, and antiracist radical black internationalism that flourished between World War I and World War II. Spanning the Reconstruction, post-Reconstruction, and Jim Crow eras, *The Black Republic* recovers a crucial and overlooked chapter of African American internationalism and political thought.
