The text, Kerns' Process Heat Transfer 2nd edition, is an update edition of the popular text by Donald Q. Kern. The second edition provides significant new material that is quite useful for an academic audience, while still maintaining its original process orientation. The second edition is divided into three main parts.

of heat transfer per unit surface area is called heat flux  $q$ . It is related to the rate of heat transfer by  $Q = \int A q dA$ . 1-9C Energy can be transferred by heat, work, and mass. An energy transfer is heat transfer when its driving force is temperature difference.
