Quantitative Technical Analysis does that extremely well. Just to be clear, this book is a great asset if you use Amibroker and have no intention of using machine learning methods, but I'll focus my review on the topics of my interest -- namely the application of machine learning using Python to trading.

Semi-quantitative immunohistochemistry (IHC) is a powerful method for investigating protein expression and localization within tissues 1-6. The semi-quantitative IHC involves using software such as free software ImageJ Fiji (version 1.2; WS Rasband, National Institute of Health, Bethesda, MD) to conduct deconvolution and downstream analysis.
