P.s. this book will not actually teach you SQL in ten minutes, that is impossible. Plan to spend at least 30 minutes, a few days a week, reading and practicing exercises. Learning SQL (like anything else) takes practice and persistence. You will succeed if you put in the time. I defer to my favorite motto, "life is a marathon, not a sprint."

SQL in 10 Minutes, Sams Teach Yourself (4th Edition ...

SQL allows us to delete records in a breeze, whether it's only one record or a group of records. Adding new records. Well, in this area SQL doesn't help us so much, but it's good to know how to use it for inserting records too. In the next few paragraphs, you'll learn how exactly these four tasks are accomplished. Let's start! The SQL statement

Both SQL Database and SQL Managed Instance use SQL Server technology to create full backups every week, differential backups every 12-24 hours, and transaction log backups every 5 to 10 minutes. The frequency of transaction log backups is based on the compute size and the amount of database activity.
