Current estimates for 2013 are near 150 million bushels. All these sources added together have provided the U.S. corn market with an average of 13 to 14 billion bushels during the last 10 years. There are also three major sources of demand for corn. The first category is feed and residual.

Supply and demand influence corn prices

In May 2013, flu vaccine manufacturers projected about 138-145 million doses would be available for the U.S. market during the 2013-214 season. As of late February, more than 134 million doses of flu vaccine had been delivered in the United States.
