The Geography Of Thought Richard

The Geography of Thought documents Richard Nisbett's groundbreaking international research in cultural psychology and shows that people actually think about—and even see—the world differently because of differing ecologies, social structures, philosophies, and educational systems that date back to ancient Greece and China. As a result, East Asian thought is “holistic”—drawn to the perceptual field as a whole and to relations among objects and events within that field.

Essay about The Geography of Thought by Richard Nisbett ...

□□The Geography of Thought
□□□□□□□□□□ . Everyone has the same basic cognitive processes. When people in one culture differ from those in another in their beliefs, it can't be because they have different cognitive processes, but because they are exposed to different aspects of the world, or because they have been taught different things.
