Access more than 100 open source projects, a library of developer resources, and developer advocates ready to help. Build Smart. Build Secure.

### Build Smart. Build Secure. IBM Developer

The WebSphere Application Server Community Edition isn't a real WebSphere application server. Its a "pimped" Apache Geronimo. I wouldn't count on seeing any IBM classes in the Community Edition that where present in your AIX WebSphere. I guess your options are: Throw everthing IBM specific out. Get at least the Express Edition.
